Training

MERN Stack Development Training	<i>Jan 2025 – Apr 2025</i>
ARTH Consultancy Services	Vadodara, Gujarat
- Completed hands-on MERN Stack training covering MongoDB, Express.js, React.js and Node.js. - Developed full-stack web application features using React.js, Node.js, Express.js and MongoDB. - Worked with REST APIs, CRUD operations, authentication, database integration and frontend-backend communication. - Practiced Git/GitHub workflow and modern web development tools.	

Projects

JobUniverse – Full Stack Job Portal	GitHub
- Developed a full-stack job portal using React.js, Node.js, Express.js and MongoDB for job seekers and recruiters. - Implemented authentication, role-based access, job posting, job search, job details and application management. - Developed REST APIs and integrated the React frontend with backend services using Axios. - Built responsive interfaces using Tailwind CSS and Material UI.	
WanderLust – Vacation Rental Platform	GitHub
- Built a full-stack vacation rental platform for browsing and managing accommodation listings. - Implemented property CRUD operations, user authentication, reviews and listing management. - Developed backend services using Node.js, Express.js and MongoDB. - Integrated Mapbox API for location-based property visualization and implemented OAuth-based authentication.	
MERN Authentication System	GitHub
- Developed a full-stack authentication system using React.js, Node.js, Express.js and MongoDB. - Implemented user registration, login, protected routes, authentication state management and logout. - Created REST APIs and integrated frontend and backend using Axios.	

Job Preferences

Availability:	Immediate Joining
Work Mode:	Work From Office (WFO), Hybrid, Remote
Preferred Shift:	Day Shift (Open to Night Shift)
Employment Type:	Full-Time
